

## Lesson #11 Inequalities (PR4)

### Drawing solution sets on number lines II

Continue to work at your own pace please. It's all about understanding and not about speed. And... sometimes you will have less time than others, so do what you can. Friday, we will touch base and note where you are. 😊

Open your notebooks up to yesterday's work- p. 51. Today, I made another video that reviews everything we talked about yesterday! (Remember that the first day is always the hardest and it will "click" today!) It's just like the old days when we were in class together! (Minus the fact that I am talking to myself and I'm at the kitchen table not in the classroom, and you are watching me on YouTube in your home LOL). Enjoy. Take notes. Press pause. Email me any questions. [Stacey.hayes@nbed.nb.ca](mailto:Stacey.hayes@nbed.nb.ca) [luke.hopper@nbed.nb.ca](mailto:luke.hopper@nbed.nb.ca)

Miss you all and wishing you all well.

*Mrs. Hayes- O'Hara and Mr. Hopper.*
