Lesson 17

RR#4 Solving Inequalities. Last lesson before our formative assessment.

This lesson discusses the last new piece of information of what you need to know with regard to solving inequalities. This lesson is divided into three parts: three videos, the last of which is my lesson.

1. An example from yesterday and an example from today.
    https://www.youtube.com/watch?v=ONuIIvgkE3c

2. Proof of why exactly we need to change the direction of the inequality when we multiply or divide by a negative number. https://www.youtube.com/watch?v=Z_78URnJXBQ

3. Practice together in solving 12 inequalities. https://youtu.be/IAXY25ouu-o

Please keep in mind that we are only an email away anytime you need help. Stacey.hayes@nbed.nb.ca and Luke.Hopper@nbed.nb.ca Keep up the great work!
