

## Lesson #9 PR3

### Solving equations with a variable in the denominator

Continue to work at your own pace please. It's all about understanding and not about speed. And... sometimes you will have less time than others, so do what you can. Friday, we will touch base and note where you are. 😊

Lesson #9 is the last lesson on solving equations and it's on YouTube. Instead of Mr. Hopper's voice, today you have Mrs. Hayes-O'Hara's- just like the good old days when we were in Math class together. 😊 These are the toughest equations so when you finish this, you've got it and we are so proud of you!

Keep up the great work. We are very proud of you and all your efforts. You are taking responsibility for your own learning! This skill will serve you well.

Miss you all and wishing you all well.

*Mrs. Hayes- O'Hara and Mr. Hopper*
